

Introduction

(by the Pharma.Aero Board)

Pharma.Aero kicked off the new year with a few achievements. We are delighted to welcome a new member - Etihad Cargo. Over the next few months, we will also be announcing a few other new members. Watch out for this space.

Our Airport to Airport Pharma Corridor Project will soon come to a new milestone with the publication of the Technical Paper.

Pharma.Aero is also finalizing our preparations for Air Cargo India, in which we would be hosting the Pharma Forum for the event delegates and invited Pharma shippers. Come 10-12 March, we will be holding our first General Assembly of 2020, alongside with IATA World Cargo Symposium in Istanbul. We encourage our members to RSVP as soon as possible, in case you have not replied to our invitation yet.

We look forward to seeing you at Air Cargo India next month!

Members Update

Pharma.Aero is delighted to welcome Etihad Cargo as a new Full Member of our organisation. Etihad Cargo has positioned itself as an industry leader when it comes to airfreighting pharmaceutical products. The airline has also recently obtained the IATA CEIV Pharma certification.

Events update

Air Cargo India

This year during the Air Cargo India Exhibition and Conference on Feb 25-27 in Mumbai, Pharma.Aero is excited to sponsor and host the Pharma Forum. The Forum will feature over 10 of Pharma.Aero members and other Pharma shippers, whom will showcase the results of Pharma.Aero's completed and ongoing projects, as well as discuss the growth potential of Indian pharmaceuticals industry.

During the entire conference, and this in close collaboration with the Mumbai Airport community, we are happy to welcome you in the Pharma.Aero Pavilion in the Expo Hall. Find [here](#) the link to the Air Cargo India website and the registration pages.

Member in the spotlight

Your Company and position:

Mr Weygaerts is the Senior Manager Intercompany Operations, Logistic Delivery Operations (LDO) at Pfizer. He is responsible for the LDO part in the logistic centres of Zaventem, Singapore and Panama.

Your relation to airfreight pharma:

Pfizer is the world leader in developing and manufacturing pharmaceutical products. The company offers a range of medicines for cardiology, anti-inflammatory, respiratory, oncology, gynaecology, and transplantation.

In serving and delivering pharmaceutical products to patients and healthcare professionals worldwide, airfreight is one of the main transportation modes managed by Pfizer International Operations.

What is the added value that Pharma.Aero can bring to the pharma handling in our air cargo industry?

As a Strategic Member, we have the opportunity to bring our thought leadership and ideas into the organisation and to help develop and shape projects that are relevant and topical, as well as in alignment with Pfizer Intercompany Operations' strategic goals. In doing so, the cross-industry collaboration, the close cooperation with IATA and its CEIV program and the opportunity to lead or co-lead projects are valuable. Pharma.Aero also allows us cross collaboration opportunities with other airport communities across the globe.

Eddy Weygaerts
Senior Manager
Pfizer

Calendar: Join us around the world!
