

2nd International Pharma Logistics Masterclass

where Business meets Academics

From September 5th until September 9th, 2022

Abu Dhabi Khalifa University Campus, UAE

Key Challenges

Innovative Forum

Academic & Industry Insights

Best Practices & Network

Presentations,
debates & practical
workshops for
industry
professionals and
master students

Broadening
industry
experience
together with
supply chain
innovators

Sharing
knowledge &
insights in an
international
framework

Academic theory
combined with
strategic decision
making and
operational insights

Registration

(open as from February 21st, 2022) (for registration details click [here](#)) *

DAY 1
SEP 5

Disruptive
Technologies & Big
Data

DAY 2
SEP 6

Supply Chain
Strategies

DAY 3
SEP 7

Innovations
Packaging & Cool
Chain

DAY 4
SEP 8

Emergency Crisis
Logistics & Health
Care Aspects

DAY 5
SEP 9

Sustainability &
Pharma Green Lane
Logistics

Disruptive technologies and their impact on the pharma supply chain
Predictive data through digital twin: simulation modelling
The use of robotics
Physical internet

Visit to the Robotics lab & Workshop digital twin

Revised trends of the pharma supply chain
Comparison of strategy models and differences between Asia Pacific and United States
Aspects of forecasting

Airport Visit & Workshop on strategy models

Future supply chain needs versus potential solutions
Packaging & cooling technologies
End to end pharma supply chain models
Tailor transport modes to commodity needs

Last Mile Pharma Distribution Visit & Workshop Cool Chain

HOPE consortium and emergency logistics: lessons learned
Life science & emergency logistics
Future health care strategies and their impact on supply chains

Genome Valley Visit

Decarbonization technologies and the adaptation of the transport modes
Creating a sustainable roadmap for pharma logistics
Freight models versus sustainable pharma logistics

Sea Port Visit & Workshop on Sustainable roadmap
